

Raising Standards
Safety Assured

Introducing the **NEW** 1-day Automated Gate Safety Certificate course for installers

PLUS more dates available for the 1-day Industrial & Garage Door Safety Certificate

✓ **1-day Safety Certificate courses**

Intended for installation and maintenance operatives, but may also be relevant to some sales people who wish to expand their knowledge.

Delegates will learn how to use the appropriate parts of the relevant Technical Specification (DHF TS 011:2018 or DHF TS 012:2018) and gain a greater understanding of the safety

standards affecting the safety of new installations, maintenance and repair of automated gates & traffic barriers or industrial & garage doors.
